

TALL CORN

TALL CORN

doesn't come by accident. A fertile soil and careful cultivation are necessary to produce the towering stems and heavy ears.

Yet the farmer who understands that he can't have a healthy corn crop without feeding and weeding, seems to think that he can have a healthy body without other care outside. But the body is built on just as the corn is.

by the assimilation of the several chemical elements on which vitality depends. And what weeds are to the corn, diseases of the stomach and nutritive systems are to the body; they divert the necessary food supply from the proper channels, and the body becomes lean, sickly and ill-nourished.

assimilation of food is a primary essential of health. By healing diseases of the stomach and organs of digestion and nutrition, Dr. Plummer's Golden Medical Discovery increases the digestive and assimilative powers, stimulates the action of the blood making glands, and sends to every organ of the body the rich red-oxygenated blood on which *cheerful* *strength*

"I took four bottles of Porter

Factor's Golden Medical Discovery, for stomach troubles, written
Clemens Carman, Esq., of Tipton-
town, Loudoun Co., Va. "M. M.

is so much good that I didn't
say more. I can eat most
anything now. I am so well!

pleased with it I hardly know how to thank you for your kind information. I tried a whole lot of things before I wrote to you.

There was a gentleman told me
out your medicine, how it had
and his wife. I thought I would

try a bottle of it. Am now glad that I did, for I don't know what I would have done if it had not 10⁰ for Dr. Fiasco's Golden Med-

**ING OF SECURITIES
CAUSED BIG ADVANCES.**

HIGHER.
St Companies Showed Large
and Quick Advances
in Price.

the gavel fell the record showed that remarkable advances had been made. By 10 a. m., when Commonwealth Trust offered at \$331 with no takers, none but the prophet would have forecasted a bull market to follow. Yesterday this same was eagerly snapped up at \$350, having advanced \$10 a share since yesterday's trading session. And there were others. Little Trust, which had been dangling at the \$400 mark at the close of last week, showed the same sort of spirit as did

other security in the banking list. Mississippi Valley and Lincoln Trust were the strong spots. Bids were strong on the showing by the St. Louis Transit Company in earlier report to the City Register. It was eagerly sought at \$35, but was firm at \$26.25. Industrial interest was apparently more than yesterday, as was shown by narrowing of the margins between bidders. Buyers were the more aggressive. There is a growing impression that a change of general business conditions

Week was larger than in years, and the commercial effect of this activity was to further the appreciation of local real securities.

Business marked the early portion of the afternoon session, but before the closing orders came to the surface and trading was brisk. The volume of transaction was nearly as large as in the morning and prices were still on the up turn. Investors were still eager to buy banking and real estate securities.

Morning Session.
